MEMORANDUM FOR THE RECORD

SUBJECT: Legislative Matters

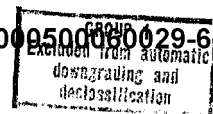

1. On this date I met with Admiral Taylor and Colonel White for the weekly discussion of legislative business.

2. Discussed the various International Institute or American Council bills. I indicated I had recently talked with Congressman Monagan who had introduced one of these as well as the Staff Director of House Foreign Affairs where hearings were held. I indicated that their view was that all of these bills were in effect dead and, therefore, it is extremely unlikely that anything could be accomplished in this field. Admiral Taylor suggested that Colonel White advise the Director of the above.

3. Discussed Admiral Taylor's suggestion about a rider to the next omnibus pay or retirement bill in the Congress to cover our retirement proposals. Discussed were the questions of Committee jurisdiction and the timing which made such a course probably inappropriate.

4. Reviewed the status of the various proposals for a Joint Committee on Intelligence. Discussed the questions of meeting with the Senate Subcommittees in view of last year's floor fight and this year's invitation by Senator Russell for participation by Mansfield, Fulbright and Hickenlooper. Colonel White then reported on the information he had received through a source from Ralph McGill concerning Senator Russell. Colonel White will brief the Director on this report.

Senator Jackson's reaction on the recent paper prepared by the Agency on Soviet interaction with the west.

7. Raised the question of a possible leak involving a Soviet defector and the serious consequences this could have with our Subcommittee members. Admiral Taylor indicated that this concern was fully appreciated but that this was no time to take any action and that this matter should be brought up in another two months.

STATOTHR

8. Mr. Warner advised Colonel White that we had raised the question of a briefing of Senator Symington concerning [REDACTED]
STATOTHR [REDACTED] with Virginia Laird. We had requested that she raise this with the Senator.

9. Colonel White discussed the contributions the Agency makes to the Joint Economic Committee indicating that this requires basically no additional work and covers unclassified information. Admiral Taylor saw no reason why we should not continue this long-standing program.

10. Mr. Warner indicated that we had gotten most of the letters out to our Subcommittee members on the House side on S. 1035.
